SUMMARY

Frontend Developer with 2+ years building production web apps using React, Vue3, Typescript, Tailwind, ShadcnUI. Founding-engineer experience at two early-stage startups. Track record shipping EdTech, social, and SaaS products.

EXPERIENCE

SATashkent

Frontend Developer

Tashkent, Uzbekistan

Sep 2025 – Present

- **Stack:** React, TypeScript, Antd, Redux Toolkit
- Frontend developer on a full-stack LMS for SAT preparation, contributing to both the student-facing test platform and the instructor/admin dashboard
- Engineered a 1:1 digital replica of the official SAT Bluebook — timed sections, module-adaptive routing, mark-for-review, embedded calculator, and answer-grid parity — delivering a near-identical exam experience
- Designed and shipped a gamification layer (badges, leaderboards) that drove daily-practice retention and student engagement

1doc.uz

Founding Frontend Engineer

Tashkent, Uzbekistan

May 2025 – Sep 2025

- **Stack:** React, TypeScript, Tiptap v3
- Built a Google Docs-style rich-text editor from scratch, replicating the editing experience 1:1 with selection-anchored inline comments
- Integrated an AI writing assistant directly into the editor that drafts, rewrites, and edits legal documents inline from natural-language prompts
- Joined as founding frontend engineer at an early-stage B2B legal SaaS; owned client-side architecture and shipped the MVP end-to-end

Commeta

Frontend Developer

Tashkent, Uzbekistan

Apr 2024 – Dec 2024

- **Stack:** Vue3, Nuxt3, TypeScript, Tailwind
- Integrated Tahrirchi AI external API for inline Uzbek-language proofreading inside the review editor — automatic grammar and spell-check with suggested corrections, improving review quality and language consistency across the platform
- Standardized environment configs and Git workflows across 8 projects, improving team productivity by 40%
- Optimized 3+ projects, improving performance by up to 20% and reducing FCP/CLS load metrics
- Built a complex survey system on Business Review (business.commeta.uz), boosting user engagement by 40% and surfacing actionable client insights
- Integrated a flexible multi-tier subscription system (“Start” and “Advanced” plans)

EDUCATION

Tashkent University of Information Technologies

B.S. Software Engineering

Tashkent, Uzbekistan

Expected 2026

- **Relevant Coursework:** Data Structures & Algorithms, Databases, Operating Systems, Computer Networks, Software Architecture, Web Development

Muhammad al-Khwarizmi Specialized IT School

Secondary Education — Information Technologies

Tashkent, Uzbekistan

2022
